PRAY FOR SCHOOLS Scotland

***Every* school a *prayed for* school! That is the vision of *Pray for Schools Scotland* - to mobilise Christians to support their school communities through prayer.**

Why pray for schools?

Schools are where young people are, and have a huge impact on their attitudes, ideas, and thinking about themselves, the world and God. Schools influence our Christian young people far more than church or home - it is where they meet their peers and spend the majority of their waking hours.

Schools are places of great opportunity, enabling children to fulfil their potential in learning. For some, schools are happy places where they flourish and thrive; for others, schools are difficult places where they are tormented, bullied and struggle to cope both socially and educationally.

Schools are places where Christians work - as head teachers, teachers, learning assistants, classroom assistants, special needs auxiliaries, cooks, secretaries, janitors. Christian staff need our prayers, as do Christian young people, as they seek to live out their faith in the school community.
